Tweaking a Style	151

Creating and Managing Templates	153
Creating a new template	153
Opening a template so that you can modify it	157
Modifying, deleting, and renaming styles in templates	157
CHAPTER 4: Building a Table with Your Bare Hands	159
What Is a Table?	160
Constructing a Table	161
Converting text to a table	161
Creating a blank table from scratch	162
Creating a table from a template	163
Selecting Table Bits and Pieces	163
Populating the Table	164
Messing with the Table Layout	165
Resizing a column width or row height	165
Resizing the entire table	166
Shoehorning columns and rows into a table	166
Deleting table elements	167
Moving a column or row	168
Refinishing Your Table	169
Designing a table with a table style	169
Calling attention to different rows and columns	170
Decorating your table with borders and colors	171
Getting Your Geek on with Table Formulas	173
Understanding formula fields	173
Referencing table cells	175
Picking Up a Few Table Tricks	176
Aligning text in columns and rows	177
Merging and splitting cells	177
Repeating headers for multipage tables	179
Wrapping text around a table	179
CHAPTER 5: Polishing Your Prose	181
Correcting Spelling Slip-Ups	182
Working with on-the-fly spell checking	182
Checking spelling directly	183
Managing your custom dictionary	184
Creating a new custom dictionary	185
Customizing the spell checker	186
Fixing Grammar Gaffes	187
Working with on-the-fly grammar checking	187
Checking grammar directly	188
Getting the Editor on the Job	189
Using the Splendiferous Thesaurus	191

	Finding and Replacing Text	193
	The basics: Finding stray words and phrases	193
	Narrowing your search	193
	Conducting a find-and-replace operation	198
CHAPTER 6:	Designing Fancy-Schmancy Documents	201
	Giving a Document a Makeover with a Theme	202
	Applying a prefab theme	202
	Trying different theme colors	203
	Creating your very own custom color scheme	203
	Giving different theme fonts a whirl	205
	Fabricating a custom theme font combo	205

	Setting the page background	209
	Corralling Text into Columns	210
	Laying Out Text in Linked Text Boxes	212
	Linking two text boxes	213
	Navigating linked text boxes	213
	Creating a navigation link to the second text box	214
	Trying Out More of Word's Page Setup Options	215
	Changing the page orientation	215
	Changing the paper size	216
	Adding line numbers	217
CHAPTER 7:	Printing Envelopes and Labels	219
	Addressing an Envelope	220
	Addressing a Label (or a Page of Labels)	222
	Churning Out Letters, Envelopes, and Labels for Mass Mailings	224
	Preparing the data source	224
	Merging the document with the data source	226
	Printing form letters, envelopes, and labels	231
CHAPTER 8:	Advanced (But Useful) Document Design	233
	Keeping a Document Organized with an Outline	234
	Switching to Outline view	234
	Collapsing and expanding outline levels	236
	Changing the number of levels displayed	237
	Promoting and demoting outline items	237
	Rearranging outline items	238
	Defining outline levels for custom styles	239

The Bird’s-Eye View: Creating a Table of Contents	239
Creating a predefined TOC	240
Creating a custom TOC	241
Updating a TOC	244
Defining TOC levels for custom styles	244
Organizing Images with Captions and Tables of Figures	245
Inserting a caption	245
Creating a TOF	247
Updating a TOF	248
Creating a custom TOF label	248
Supplementing Your Text with Footnotes and Endnotes	249
Adding a default footnote	250
Adding a default endnote	250
Creating custom footnotes and endnotes	251
Navigating footnotes and endnotes	253
Naming Names: Inserting Citations and Bibliographies	254
Inserting a citation	254
Editing a citation’s source	255
Suppressing a citation’s fields	256
Managing your sources	256
Inserting a bibliography	258
Making an Index, Checking It Twice	258
Marking index entries directly in the document	259
Marking index entries with a concordance file	261
Creating the index	262
Updating an index	262
CHAPTER 9: Writing and Editing with Copilot at Your Side	263
Getting to Know Copilot	264
Meeting your new assistant	265
Checking for Copilot access	266
Drafting New Text	266
Adding Text to an Existing Document	269
Transforming Existing Text	270
Referencing a File	271
Getting Copilot’s Help with a Document	273
Understanding a document	274
Improving a document	275
BOOK 3: EXCEL 365	277
CHAPTER 1: Excel: The 50-Cent Tour	279
Getting Comfy with the Excel Window	279
fooling around with the Formula bar	281

Touring the worksheet area	282
Taking a closer look at the status bar	285
Creating Fresh Workbooks	286
Taking it from a template	286
Opening a new blank workbook	292
Data Entry 101	292
Data entry keyboard style	293
Entering text labels	294
Entering numeric values	295
Entering date and time values	295
You AutoFill me	297
Flash Fill to the rescue	303
CHAPTER 2: Sprucing Up a Worksheet	307
Selecting Cells and Ranges	308
Selecting cells with the mouse	308
Selecting cells with the keyboard	310
Adjusting Columns and Rows	311
Fitting the column to its contents automatically	311
Adjusting columns the old-fashioned way	312
Hiding a column or two	313
Fiddling with rows	313
Formatting Cells from the Ribbon	314
Formatting Numbers, Dates, and Time Values	316
Hiring Out the Format Painter	317
CHAPTER 3: Fiddling with Your Worksheets	319
Editing a Cell	320
Changing your mind with Undo and Redo	320
Clearing cells	322
Deleting cells	323
Inserting cells	324
A Worksheet with a View	326
Zooming in and back out again	326
Freezing window panes	328
Copying and Moving Stuff Around	330
Copying and moving with drag-and-drop	331
Copying and moving with copy, cut, and paste	332
CHAPTER 4: Taming Your Worksheets	337
Revamping a Worksheet	337
Being cautious when deleting and inserting columns and rows	338
Deleting columns or rows	339

Inserting new columns or rows	340
Splitting the worksheet into panes	341
Outlining a worksheet	344
Overhauling a Workbook	350
Renaming a worksheet	350
Outfitting a workbook with designer sheets	351
Adding worksheets	353
Deleting worksheets	353
Changing the sheets	354
Editing and formatting multiple worksheets as a group	355
Hiding worksheets	356
CHAPTER 5: Building Basic Formulas	359
Getting Started with Formulas	360
Pointing at formula cells	361
Editing formulas	362
Using AutoSum to add numbers	362
Building formulas with computational operators	364
Augmenting Formulas with Functions	367
Inserting a function	368
Entering function arguments	370
Copying Formulas	372
Copying with relative cell references	372
Copying with absolute references	374
Copying with mixed cell references	376
Adding Array Formulas	377
Creating an array formula	378
Editing a dynamic array formula	380
Building old-fashioned array formulas	380
Editing an old-fashioned array formula	381
Naming Cells and Ranges	382
Defining cell and range names	382
Using names in building formulas	383
Creating names from column and row headings	384
Managing names	386
CHAPTER 6: Analyzing Data	387
Getting Quick Analyses from Excel	387
Running a rough-and-ready data analysis	388
Seeing what the sparklines say	389
Generating a forecast sheet	390
Eyeballing Trends and Outliers with Conditional Formatting	391

Managing Information in Tables	393
Converting a range to a table	394
Sorting a table	394
Filtering a table	395
What If You Used What-If Analysis?	396
Experimenting with Goal Seek	397
Kicking your analysis up a notch with data tables	398
Summarizing Data with PivotTables	403
Getting a PivotTable recommendation from Excel	404
Creating a PivotTable from scratch	405
Putting the finishing touches on a PivotTable	407
CHAPTER 7: Visualizing Data with Charts	409
Learning Some Crucial Chart Basics	409
Reviewing chart parts	410
Understanding how Excel converts worksheet data into a chart	411
Getting to know Excel's chart types	413
Forging a Fresh Chart	414
Inserting a recommended chart	414
Creating an embedded chart	415
Creating a chart in a separate sheet	417
Activating a chart	417
Moving a chart between a chart sheet and a worksheet	417
Changing the chart type	418
Selecting Chart Elements	419
Dressing Up Your Charts	419
Formatting chart elements	420
Formatting a chart axis	422
Displaying and formatting chart gridlines	423
Adding chart text	424
CHAPTER 8: Automating Excel with Copilot	427
Getting Copilot on the Job	428
Analyzing Data	429
Data cleaning	430
Basic data summarization	431
Trend analysis	431
Forecasts	431
PivotTables	431
What-if and sensitivity analysis	432
Scenario analysis	432
Advanced analysis queries	432
Creating Formulas	432
Basic mathematical formulas	433

Statistical formulas	434
Text formulas	434
Logical formulas.	434
Date and time formulas	435
Lookup and reference formulas	435
Conditional formulas	435
Financial formulas.	436
Array formulas	436
Nested formulas	436
Highlighting Data	437
Basic conditional formatting	437
Top/bottom rules.	438
Data bars, color scales, and icon sets.	438
Highlighting duplicates.	438
Custom formula-based conditional formatting	438
Sorting and Filtering Data	439
Basic sorting	440
Sorting by multiple criteria.	440
Custom sorting.	440
Basic filtering	440
Filtering by date	441
Filtering by text criteria.	441
Filtering by number criteria	441
Advanced filtering	441
Sorting and filtering combined	442
Visualizing Data	442
Basic charts	443
Advanced charts	443
Combination charts.	443
Highlighting data trends.	443
Comparative analysis	444
Pie and donut charts.	444
Histograms and box plots	444
Data distribution and density	445
Geographical data visualization	445
Sparklines and small multiples	445
BOOK 4: POWERPOINT 365	447
CHAPTER 1: Putting Together a PowerPoint Presentation	449
Producing a New PowerPoint Presentation	450
Perusing the PowerPoint Window	452
Changing views	453
Looking at the different views	453

It's All About the Slides	454
Adding a Slide to the Presentation	455
Inserting a new slide	456
Duplicating a slide	456
Reusing a slide from another presentation	457
Filling Out a Slide with Data	458
Adding text	459
Adding a graphic or video	459
Creating a photo album presentation	460
Adding a table	461
Adding a chart	462
Adding notes	463
Getting Copilot to Help	465
Messing Around with Slides	465
Selecting slides	466
Rearranging slides	466
Changing the layout of a slide	466
Hiding a slide	467
Deleting a slide	467
Defining slide footers	468
Printing slide handouts	469
Building a Presentation from an Outline	471
Creating the outline by hand	471
Creating an outline from a text file	474
Creating an outline from a Word file	474
Controlling the display of outline levels	475
Editing the presentation outline	475
Peeking Behind the Curtain: The Slide Master	476
Viewing the Slide Master	477
Using multiple Slide Masters	478
CHAPTER 2: Formatting Slides	481
Applying a Slide Theme	482
Choosing a predefined theme	482
Changing the theme colors	483
Creating custom theme colors	483
Changing the theme fonts	485
Creating custom theme fonts	486
Applying theme effects	487
Changing the slide background	488
Creating a custom theme	489
Reusing a slide theme from another presentation	489
Formatting Slide Text	490
PowerPoint's font buttons	490
Easier formatting	491

Replacing fonts	494
Creating advanced text shadows	495
Formatting Tips and Techniques	496
Selecting slide objects	497
Using drawing guides to position objects	497
Nudging an object	498
Recoloring a picture	499
Compressing pictures to reduce presentation size	499
Repeating a shape at evenly spaced intervals	500
Forcing shapes and text to get along	501
Specifying the default formatting for a shape	502
Slide Formatting Best Practices	502
CHAPTER 3: Creating Dynamic Presentations	505
Animation Guidelines	506
Setting Up a Slide Transition	507
Defining Slide Animations	508
Animating a slide title, picture, clip art, or table	509
Animating a bulleted list	510
Animating a chart by series or category	511
Animating a SmartArt graphic	512
Customizing an animation	512
Setting Up Hyperlinks and Action Buttons	513
Adding a text link	514
Assigning an action to an object	517
Inserting a media object	518
Inserting an action button	519
Using a link to run a macro	520
CHAPTER 4: Delivering a Presentation	523
Rehearsing Slide Timings	524
Adding Voice and Video	525
Recording narration for a slide	526
Making a cameo appearance	527
Recording a presentation	528
Creating a Custom Slide Show	530
Running a Slide Show	532
Setting some slide show options	532
Setting up an automatic slide show	532
Starting the slide show	533
Navigating slides	533
Navigating the slide show from the keyboard	535
Annotating slides	535

BOOK 5: OUTLOOK 365	537
CHAPTER 1: Sending and Receiving Email	539
Setting Up Your Accounts	540
Setting up your initial account	540
Adding more accounts	541
Removing an account	542
Getting Acquainted with Outlook	542
Surveying the Outlook window	542
What's with all the Mail folders?	544
Displaying Outlook's settings	544
Shipping Out a New Message	545
Composing a message	545
Composing a message with Copilot's help	547
Scheduling a send	548
Undoing a send	549
Using the People app list to specify recipients	550
Attaching a file to a message	551
Setting message options	551
Creating and inserting signatures	552
Reading Incoming Mail	553
Retrieving messages	553
Controlling message notifications	554
Reading a message	555
Getting Copilot to summarize a message	556
Replying to a message	556
Reacting to a message	557
Forwarding a message	557
Dealing with attachments	558
Working with your messages	558
Snoozing a conversation	559
Setting up a vacation responder	560
Categorizing a message	561
Setting a message follow-up flag	562
Using Rules to Process Messages Automatically	563
Creating a rule from scratch	563
Creating a rule from a message	565
CHAPTER 2: Managing Your Contacts	567
Exploring the People App	568
Adding a New Contact	569
Creating a new contact from scratch	569
Creating a contact from an email message	571
Importing contact data	572
Creating a contact list	572

Working with Your Contacts	574
Editing contact data.	574
Adding a photo for a contact.	575
Designating a contact as a favorite.	576
Deleting contacts.	576
Displaying contact activity	577
Sorting the contacts	577
Exporting your contacts	577
Performing Contact Tasks	578
Phoning a contact	578
Sending an email to one or more contacts	578
Starting a chat with a contact	579
CHAPTER 3: Keeping Track of Appointments	581
Getting Together with the Calendar App	582
Changing the displayed date	582
Changing the number of days displayed	583
Creating a custom view.	584
Changing the time scale	585
Configuring the work week	585
Displaying a second time zone	586
Items You Can Schedule in Calendar	587
Setting Up an Event.	588
Scheduling a basic event	588
Creating a recurring event	589
Getting reminded of an event	592
Scheduling an All-Day Event.	594
Requesting a Meeting	595
Sending out a new meeting request.	596
Planning a meeting	598
Tracking a meeting	599
Cancelling a meeting.	599
BOOK 6: ACCESS 365	601
CHAPTER 1: Forging Databases and Tables.	603
Understanding Access Databases.	603
Tables: Containers for your data.	604
Forms: Making data entry easier.	605
Queries: Asking questions of your data	605
Creating an Access Database.	606
Creating a blank database	606
Creating a database from a template.	607

Working in the Navigation Pane	608
Switching the Navigation pane category	609
Filtering the Navigation pane by group	610
Creating a custom Navigation pane category	611
Designing a Table	612
Does the table belong in the current database?	613
What type of data should I store in each table?	613
What fields should I use to store the data?	614
Deciding which field to use for a primary key	614
Creating a Table	615
Creating a table using the Datasheet view	616
Creating a table using the Design view	617
Switching between the Design and Datasheet views	629
Importing External Data	629
Creating and Using Forms	631
Creating a basic form	631
Creating a simple form	632
Creating a split form	633
Creating a multiple items form	633
Running the Form Wizard	634
Navigating form fields and records	636
CHAPTER 2: Entering, Sorting, and Filtering Data	637
The Population Boom: Entering Data	638
Getting comfy with the Datasheet view	638
Navigating field-to-field	639
Entering data	640
Adding more records	641
